Summary

A curious learner and excellent team player searching for a challenging position as a Software Engineer to utilize my technical competencies, problem solving skill, knowledge of coding and networking services and excellent communication skills to grow as a Software Engineer.

Skills

- Node.js | Express.js | React.js | TypeScript | C++ | C | Java | SQL | NoSQL | Redux | Git | GitHub
- Object Oriented Programming | Data structures | Algorithms
- Frontend | Backend | Full-Stack | Problem Solving

Experience

Junior Software Engineer	<u>Orbit Informatics</u>	<i>Dhaka, Bangladesh</i> 09/2024 - 09/2025
• Develop, test, and maintain software applications in line with client specifications. • Troubleshoot and resolve issues in web applications to ensure functionality and performance. • Collaborate with team members to deliver high-quality software solutions. • Contribute to backend development and system optimization. • Assist in the design and development of browser-based tools and extensions		

Education

Master of Science	<u>Ulster University</u>	09/2025 - Present
• Major in Computer Science & Technology		
Bachelor of Science	<u>University of Information Technology & Sciences</u>	07/2019 - 07/2023
• Major in Computer Science & Engineering • Attending Intra-University and Inter- University Programming Contests and Hackathons.		

Projects

- **VoucherMe** : Worked as a freelance backend developer for VoucherMe, an Ireland-based startup, building and integrating various features and APIs with Node.js, Express.js, and MongoDB as the database. Focused on efficient data handling and seamless API functionality. [VoucherMe](#)
- **Northland Agronomy** : Worked as a freelance full stack web developer for Northland Agronomy, a Canada-based startup, creating various features and APIs using PHP, JavaScript, and DBEaver as the database. [Northland Agronomy](#)
- **Doctors-Junction** : I worked as a software developer, project planner, and designer, gaining extensive experience with JavaScript, React.js, React Context, Tailwind CSS, Node.js, Express.js, and MongoDB. [Doctors-Junction](#)
- **Personal Portfolio** : Developed the project in React.js, designing a custom structure my own way that helps to create a dynamic and reusable website for everyone. [Personal Portfolio](#)
- **I-Blogify** : I have designed the project feature and implemented all required features. Used JWT security, EJS, Node.js, and Express.js [I-Blogify](#)

Achievements

- Champion at UITS Victory Day Programming Contest, 2021
- Champion at Intra University Programming Contest, 2022
- 1st Runner Up at UITS Intra Virtual Fest Programming Contest 2020
- 1st Runner Up at UITS Intra University Programming Contest, 2022
- 5th Position at UPC Collaboration Contest, IUPC-2022
- 4th Position at Ahmed Zubayer Inter University Programming Contest , IUPC-2022
- 2nd Runner Up at Ahmed Zobayer Inter University Programming Contest, IUPC-2023

Solved 1500+ problems in various prestigious online judges and attended around 15 national competitive programming contests and ICPC - 2022.
